Uninstructed Delegates.

The delegates elected on Thursday last to represent the Democrats of Richmond in the Democratic State Convention of next week are all in a certain sense uninstructed. Sixty-four of these men were elected as CLEVELAND men. Thirty-four of them were elected as anti-CLEVELAND men an unfortunate designation, seeing that the men who opposed Mr. CLEVELAND'S nomiild not properly be said to be voting as anti-CLEVELAND men. They were opposed to his nomination, not to the man. They objected to his non-availability, not to his creed as a Democrat. This is as far as the results of the election of Thursday

ought to have committed any man. So the delegates elected to the State convention from Richmond are all of them in favor of leaving the delegates to Chicago free to vote as they please in the Chiago convention. Certainly the thirtyfour men elected on the anti-CLEVELANI ticket are untrammelled. They can vote to leave the delegates to Chicago entirely uninstructed. It may be claimed that they are bound to vote against CLEVELAND delegates because they were elected as "anti-CLEVELAND men"; but we think, as we have just said, that the understanding was that they were to vote to send uninstructed delegates to Chicago-delegates free to vote as in their best judgment they ought to vote after a full and free conference at and that in excavating for the shore-pier on Chicago with delegates and other repre-sentative Democrats from all parts of the

In its first address to the people of Richmond the Cleveland Club said: "The object of the club is to bring together for

"The object of indeed work those Democrats whose first choice for President is Grover Clove-hard, but who are opposed to the Virginia dele-gation to Chicago being pledged or instructed in favor of any candidate." The declaration is unambiguous, and

was at the time recognized by the Dis-PATCH as placing the Cleveland Club on safe ground, though later on there came from another source here the outery that "an uninstructed man is always a HILL man." At a meeting of the same Cleve-LAND club neid May 6th the following resolution was adopted:

* Be it resolved. That while our first choice for President is Grover Cleveland, yet the delegates nated by this club are hereby instructed that it is the positive wish of this club that they will vote in the State convention against instructing or pledging the delegates to Chicago in favor of any candidate, but that they will rote for delegates who will exercise their bes judgment under the circumstances then and there surrounding them in selecting a presidential candidate.

JACKSON GUY, Esq., president of the Cleveland Club, published a communication in the Disparch of Thursday-election-day-in which he said :

tion-day—in which he said:
Fellow-Democrats,—We ask that you will not
believe the untruth that is being told about the
friends of Mr. Cleveland. We are being repre-Friends of Mr. Cleveland. We are being repre-sented as being for Mr. Cleveland without regard to the success of the Democratic party. We have never changed our position," &c., &c. [Here he quotes the resolution above recited.]

The River and Harbor Bill-It is given out in Washington that the Senate means to hold the river and harbor

appropriation bill until the House satisfac torily disposes of certain other appropria-tion bills in which the Senate is interested.

In other words, it is alleged that the Republicans will undertake to say to the emocrats, "Pass our bills or we shall not bass yours."

It is Republican doctrine that no rivers and harbors except those round about New York and in a few other favored localities are entitled to the consideration of the United States Government, and they would be only too glad to kill the bill if they could manage to save the items relating to their pet localities. Of course the House should not permit

the Senate to bulldoze it. It is the larger body, and is the body that ought to have more weight than the other body in raising and disposing of revenues. But we doubt if the Senate will care or dare to enter upon any such warfare as that which is suggested. It has more to lose than to gain by that plan of campaign, and besides it would be unworthy of the dignity

of the gentlemen who compose the body.

No doubt each house is willing to make
some campaign capital for its party out of appropriation bills, or any other legislative matter, but in the end there must be a joint responsibility. The voters are not such tools as not to see this.

We expect the Senate to amend the giver and harbor bill in many particulars, and the bill will no doubt have to go to a committee of conference, and the committee's report is likely to be adopted by both houses. And so with all of the other appropriation bills.

The Viva-Voce System. The riva-roce system of voting is not open to so many frauds as the secret bal-lot is, but it undoubtedly keeps many

timid citizens from the polls. What is more, it makes enemies of men who else would be friends—party friends at least. Say what you please, the average man is irritated—or at least not pleased when he sees one who he thinks should wote for him come up to the polls and scratch his name off the ticket.

Almost all of the hard feelings that have been left by Thursday's primary are the product of the vice-roce system. And yet that system worked better where the contest was alleged to be "CLEVELAND" or "HILL"—and where a voter could readily excuse himself by saying that he voted for his ticket and not for mere persons—than it would work in a municipal primary where no one could have that reasonable

If we were to adopt the rise-roce system here for permanent use in our primarie the popularity of primaries would disap

A New York View of the Conference The New York World takes the same view of the recent agreement of England to enter a new international bimetallic conference that we have several times prented in the DEPARTER. That paper in its sue of Thursday last has an article of me length from which we clip the fol-

ional bimetallism," and should be ac-ional bimetallism," and should be ac-iopted as such by the silverites. The gold men should also rejoice that there is a pos-sibility at least of getting silver to be of equal value (16 to 1, or 15 to 1) with gold.

The Syracuse Convention.

There is only one course open to the originators of the State Democratic Convention, called by them to assemble in Syracuse on the 31st instant. They must not think of sending a delegation of Bolters (as we style them, but who, the World says, have no right even to that name) to the Chicago convention. We quote from

our New York contemporary:
"To suppose that the national convention will unseat a delegation legally chosen through the recognized organization and machinery of the party in tiffs State and admit a set of contestants who are not even Boltera—not having participated in the regular convention—is to imagine that the national Democracy will organize and accept defeat in advance."

Now, that is the view which will be

Now, that is the view which will be 5 20 Row, that is 9 80 taken by the Chicago convention, we doubt not. It is preposterous to expect the regu-larly-chosen delegates to a national con-vention to be turned out of that body. Their title to seats is indefeasible and indisputable.

Twelve Pages To-Morrow. The DISPATCH of to-morrow will be welve-page ininety-six-column paper, and we shall therein present to our readers a

Politics necessarily occupy much of our space and attention on week-days, but we generally manage to restore the equilibrium on Sunday. While we cannot promise to drop the presidential question entirely in to-morrow's issue, we promise to have an abundance of other good reading matter covering the domains of literature and fashion, fact and fiction, together with a great ingathering of news made by our able and vigilant correspondents and reporters.

In short, we shall have a great-big, readable paper to-morrow, which will be of equal interest to town and country people and to men and women.

So far as we can learn the primary election of Thursday will leave no discord in

our party ranks here. The defeated men have cheerfully accepted the situation, and the victors, generally speaking, are wearing their laurels

This local condition will hardly be altered before the convention meets; meanwhile there are plenty of Democrats who were on opposite sides of Thursday's contest who say that they heartily wish that the Chicago convention may look elsewhere than to New York for a presidential candi-

The telegram in yesterday's papers stating that the new steel bridge at Memphis is on the exact spot where FERDINAND and that in excavating for the shore-pier on the Tennessee side some Spanish halberds. supposed to have been used by him, were found, reminds us of the sword which an auctioneer in crying it said was the one which BALAAM had wished for.

ville Thursday the defeated CLEVELAND men in those cities are consoling themselves with the victory of the Clevelandites in Richmond. So it goes. The Free Press is the name of a new weekly the publication of which has just been begun at Harrisonburg, Va. Messrs. H. B. MILLER and M. G. SNAVELY are the

editors and proprietors. In politics the paper "will be independent"-a difficult role to fill. Mr. W. H. Towney has sold the Marion Democrat to Messrs. C. H. CARPER and J. G.

A Chivalrie and Manly Letter. [Staunton Vindicator.]

It is rarely that we meet in politics with so chivalric and manly a letter as this from the State Chairman of the Democratic party to

Mr. Ellyson, since he assumed the position, has made a record that has not been surpassed in our party for twenty-five years for sound judgment, untiring watchfulness, and unfalling energy. His reanagement of the party in its relations to the Alliance Democrats last year was the acme of good sense and broad views, as our knowledge of it enables us to testify.

No political ship of state was ever steered more successfully through more uncertain

nore successfully through more uncertain When the Virginia Democracy comes to rewa men who have unfailingly led it to victory Mr. Ellyson's name should be found high on the list.

Senator Colquitt's Prediction.

[Washington Post, yesterday.] Senator Colquitt left last night to attend the Georgia State Democratic Convention which is to be held next Wednesday. Before his departure he said that the delegation to Chicago would be uninstructed, but that it would be anti-Cleve-

AMERICAN INVENTIONS IN INDIA. Something of Interest to all Ameri-

A Calcutta letter says that American inventions and discoveries are fast displacing the older ones of English manufacture in the Indian Empire. Thus, a few years ago, the American harvesters and reapers were entirely unknown, where now there are many. The American telephone has been introduced in most of the large cities. Stranger than all, the old-fashioned, huge pills are fast giving place to Pr. Pierce's Pleasant Pelleta, or "P. P. P.," which were first introduced in London some years ago by their American proprietors. Every Englishman who enjoys good eating, must have his dinner-pill, and it is not unusual to see distinguished persons draw from their walsteents a tiny little vial of these Pellets, and take one with their wine. After taking one you feel well, instead of bilious and constipated; your sick headache, dizziness and indigestion are gone. It's done mildly and easily, too. These are tiny, sugar-coated, but thereugh in results. One Pellet's laxative, three to four are cathartic. They regulate and cleanse the liver, stomach and bowels—quickly, but thoroughly. They are guaranteed to give satisfaction. A Calcutta letter says that American to

Suffering Children

Our girl was a beautiful baby, fair and plump and healthy. But when she was two years old, sores broke out behind her ears and spread rapidly over her head and forehead down to her eyes, and into her neck. We ited one of the best physicians in Brooklyn, but nothing did her any good. The doctors said it was caused by a scrofula humor in the blood. Her head became

One Complete Sore offensive to the smell and dreadful to look at. Her general health waned and she would lay in a large chair all day without any life or energy. The sores caused great itching and burning, so that at times we had to restrain her hands to prevent scratching. For 3 years

with this terrible humor. Being urged to try Hood's Sarsaparlila we did so. We soon noticed that she had more life and appetite. The medicine seemed to drive out more of the humor for a short time, but it soon began to subside, the isching and barning ceased, and in a few months her head became entirely clear of the sore. She is now perfectly well, has no evidence of the humor, and her skin is clear and healthy. She seems like an entirely different child, in health and general appearance, from what she was before taking
